

# M. Manan Nasir

## Objective

To obtain a position as a ReactJS Front-End Developer, utilizing my skills in creating dynamic user interfaces and building efficient, scalable web applications.

## Projects

I have built a number of projects in React JS, few of them includes: -

(Clicking on Bold Name of Project will lead you to Live Site)

- **CRUD App** ( Tech Stack: React, Bootstrap, Redux Toolkit)
- **Cocktail Site** (I have built cocktails site through fake APIs  
Tech Stack: React, React-Router-Dom, Bootstrap, Redux)
- **Gear Train** (Mechanical Engineers have to iterate again and again to find suitable number of teeth of gears, so I write a code that will result all the possibilities of gear teeth for their requirements and they can easily choose according to market availability)
- **Pizza Store** (Built a simple pizza store app, useContext for state  
Tech Stack: React, Tailwind CSS)
- **Quiz Site** (Built a quiz site for students of matric and intermediate, contain *login/signup* functionality, user can select test of every chapter of Physics, Chemistry, Biology etc. and at the end result is displayed in the form of performance percentage.  
Tech Stack: React, React Hot Toast, Nivo Charts, CSS 3, Redux)
- **Quiz Site Admin** (For above quiz site, I also created the admin portal through which admin will create, read, update and delete MCQs and can control Quiz Site)

## Education

### BS Mechanical Engineering

PIEAS University, Islamabad

Current Semester: 6<sup>th</sup>

Expected Graduation: August, 2024

### Higher Secondary School

H.B.S College, Faisalabad

Grade: A+

Graduation: August, 2020

### Front-end Development

Learn Front-end development at TopCamp I-8 Islamabad

## Academic Achievements

Matriculation: First position at School Level (1054/1100 Marks)

FSc (Pre-Engineering): 3<sup>rd</sup> Position in Faisalabad Board (1059/1100)

ECAT: Among top 15 students in overall Punjab (291/400 Marks)
